Public Statement from Veteran Warriors Executive Director

November 7, 2022

As we near Veterans Day, Veteran Warriors recommits to clarifying topic awareness in the Veteran Community in our social media channels. We work hard to get things done, and we stand firm for our community: Advocacy for Benefits and Health Care, Caregiver Support, Education Benefits, Survivor Benefits and Services, Toxic Exposure, and working with <u>any</u> organizations that hold Veterans and their families at their core. Advocacy is often uncomfortable, but we state facts and press for change. Join us!

Caregiver Support seems to be at the center of the many topics of concern within the Veteran community; we understand your frustration and hear you. Veteran Warriors will continue to advocate for the widely expressed changes within the program for the best interest of this community, and we are grateful the Department of Veterans Affairs is open to change. We deeply appreciate the positive culture shift in caregiver outlook within the community. We have publicly acknowledged and applauded as the program reflects the extensive listening sessions. Still, we also understand the historical concerns of the community.

We are proud of the progress made and the bold actions taken in court that have already helped many in the Caregiver community with the Supervision, Protection, and Instruction clause. We welcome collaboration with other VSOs to further the goals of support, transparency, and positive change. Court is never the first choice of redress, but it is sometimes necessary.

Contact Holly Ferrell, Executive Director of Veteran Warriors, with questions, comments, or to partner with Veteran Warriors: Holly@Veteran-Warriors.org and put "Response" in the Subject line.
